

Public Data
OHLC + FRED

```
graph LR; A[Public Data  
OHLC + FRED] --> B[Volatility Target  
RS / Parkinson]; B --> C[Multiscale Features  
HAR + Wavelet]; C --> D[Forecasting  
Hybrid ML]; D --> E[Warning  
Probability];
```

The diagram illustrates a five-step process for financial forecasting. It begins with 'Public Data OHLC + FRED' in a light blue box, followed by 'Volatility Target RS / Parkinson' in a light blue box, then 'Multiscale Features HAR + Wavelet' in a light blue box, then 'Forecasting Hybrid ML' in a light orange box, and finally 'Warning Probability' in a light yellow box. Each step is connected to the next by a right-pointing arrow.

Volatility Target
RS / Parkinson

Multiscale Features
HAR + Wavelet

Forecasting
Hybrid ML

Warning
Probability
